17. (New) The garment according to claim 3, wherein the stretch tape having a shorter length than a determined length is mounted to the second crotch cloth piece while being stretched.

21

20

18. (New) The garment according to claim 4, wherein the stretch tape having a shorter length than a determined length is mounted to the second crotch cloth piece while being stretched.

11

9

19. (New) The garment according to claim 8, wherein:

the second crotch cloth piece is formed by joining two cloth pieces on front and rear sides together by sewing;

a length of a longitudinal center line of each of the two cloth pieces on front and rear sides is approximately the same as a determined length;

a length of right and left edges of each of the two cloth pieces on front and rear sides is shorter than a determined length;

the two cloth pieces on front and rear sides have opposed edges to be joined, each edge expanding in a convex form; and

the two cloth pieces on front and rear sides are joined by sewing at their edges expanding in a convex form.
